What the Centre Offers

Glenview Community Centre's greatest asset is its building; it brings together diverse sectors of our communities to create a "Hub" for our community.

We would like to encourage people in our community to participate in what our centre has to offer as well as working collaboratively on issues or participate in projects to create a "vibrant community".

As such, we are often a point of contact for community members as well as other agencies. A diverse range of services, programmes and opportunities for either individuals or groups is offered.

Our friendly staffs are always available to get your feedback, hear your ideas and suggestions. Please feel free to contact us or just call in for a hot cuppa and chat.

If you are interested in volunteering and/or joining the Team G-Unit, you are aged 15-22 years, can commit to attend trainings, leadership camps and community events throughout the year please call in or give Rou a call at the centre.
